

What is Design?

Design can be simply put as Problem Solving and till now you might have already heard it a lot. But you might be a little confused how would you begin your journey in this awesome design world. Fear not DS presents you this road map, to give you directions but for learning design. Good Luck for the journey ahead!

Design Process

Depending upon the problem, the way of solution varies. To categorize broadly designer give solutions in form of graphic, 3D, motion, UI/UX. Lets take one step at a time and start graphic design journey
