

Motion Design

What is Motion Design?

Motion Graphics means “graphics” in “movement”.

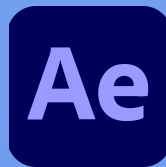

Motion Graphics is also called Motion Design, making the relationship between movement and design elements easier to understand.

Motion Graphics is about bringing the design knowledge to new mediums by adding the elements of time and space to it — i.e. creating movement.

Resources

For getting into Motion Design you can check out [this](#) article. Have fun!

Tools

Adobe After Effects

You can learn it from [GFX Mentor](#), [Ben Marriott](#) or [SonduckFilm](#).
